

BLUE HAVEN'S **24H WATER MANAGEMENT SYSTEM**

Some of the reasons why Blue Haven's Filtration System is better than alternative systems:

- One of the kindest most effective water purifiers available
- Kills all known virus, bacteria, mould, fungi and yeast
 - Adds no contaminants to the water
- Natural PH – makes water pleasant for bathers
 - Eliminates eye burn – keeps water soft
 - Deodorizes water – clean, pleasant smell
 - Wont fade clothing or discolour hair
 - Works automatically
- Not affected by high water temperatures and is non-foaming

Our Story

Our water management system is active oxygen which is naturally produced by the sun's ultra-violet light.

This principle has been used since the late 1800's. Today there are more than 6000 plants world wide using this technogly to purify drinking water and more than 1,000,000 Units in use for recreational pools and spa water.

You can forget chlorine side effects, unpleasant odours and cloudy water. With the Blue Haven System all you get is Clean, Clear, Healthy Water.

Tests haven proven treated water to be substantially more effective than 2ppm of "free" chlorine. The Blue Haven Management System will attack and kill all known Bacteria, yeast, algae, virus, mould and fungi.

Automatic

To ensure maximum efficiency on any spa it requires well circulated water.

The Blue Haven 24hour Management System works Automatically. This ensures the healthiest spa water available.

Bather And Equipment friendly

The Smell, the Feel, the taste, the look – in fact, everything about this system treated water is kinder to the bather. Eye burn, unpleasant odours, discolouration of hair swimming costumes ate all things of the past. This system has a neutral pH effect on water, so spa owners can expect a longer life from equipment due to reduced corrosion.

Low maintenance

Very little maintenance is required with the Blue Haven system once installed, it does its job silently with absolute efficiency. The water is sanitized electrically and continually dispensed automatically through the water, the Ozonation of your spa will give you water that is clean enough to drink.

This system does work – Naturally and reduces your chemicals to a minimum. Some shock treatment is used.

No Chemical Residue

After the Water Management System does its job ridding you spa of impurities it quickly converts back to oxygen. That means there is no chlorine residue and no build up of toxic chemicals
